April 2024

Bachelor of Pharmacy (CGPA: 8.32)

Tirupati, Andhra Pradesh

- **Relevant Coursework:** Computer aided Drug Design, Pharmacology, Cheminformatics, Phytochemistry, Medicinal Chemistry, Microbiology, Biotechnology, Novel drug delivery system, Pharmaceuticals, Pharmacognosy

Accord School

July 2019

12th CBSE (86.4%)

Tirupati, Andhra Pradesh

- **Relevant Coursework:** Biology, Physics, Chemistry, Computer Science, English

Lebanon School

June 2017

Cambridge O Levels (86.4%)

Kano, Nigeria

- **Relevant Coursework:** Biology, Physics, Chemistry, Math, English

Experience

ERNET India

Apr 2026 – Present

Research Intern

Chennai

- Working to build standardized protocols for image acquisition, anonymization, and quality control of neurological imaging data for the Indian population.

World Agriculture Forum

Jun 2025 – Jul 2025

Research and Knowledge Management Intern

Remote

- Worked on the research topic "Use of Artificial Intelligence in Australian Livestock Management."
- Conducted extensive secondary research.

Indian Institute of Technology Madras

Feb 2025 – Sep 2025

Business Data Management Project Mentor

Remote

- Mentored 15 students on their Business Data Management projects, guiding them from problem definition to final presentation.
- Facilitated weekly doubt-clearing sessions and delivered individualized feedback, improving project clarity and execution.
- Ensured on-time project submissions across mentees by closely tracking milestones and providing continuous support.

Academic Projects

Bridging Conflicts with Emotional Intelligence: A workplace perspective

- Designed a framework to enhance workplace relations using **Emotional Intelligence (EI)**, aiming to reduce interpersonal conflicts and improve team collaboration.
- Conducted **literature review**, **primary surveys**, and **interviews with industry professionals** to gain practical insights.
- Performed **exploratory data analysis (EDA)** to identify behavioral patterns in organizations.
- Discovered a **strong correlation (0.59)** between empathy recognition and overall EI perception across genders, informing targeted EI training strategies.

LinkiFy (Influencer-Sponsor Application) | HTML, CSS, Vue.js, Flask, SQLite

- Developed a web application platform designed to connect sponsors and influencers as part of my coursework in Modern Application Development.
- Linkify allows users to register and log in as either Influencers or Sponsors, offering features for managing campaigns and ad requests, with interactions customized according to the user's role.

Optimization of HR in Balamurugan Traders' Business Framework

- Analyzed HR inefficiencies and sales patterns for **Balamurugan Traders**, a B2M enterprise, to improve business operations.
- Leveraged **seasonal sales data from the past fiscal year** to identify peak periods and customer traffic behavior.
- Proposed **data-backed HR and product placement strategies**, including **strategic product positioning near billing counters**, reducing customer wait times by **~4.46 minutes**.
- Enhanced operational efficiency and customer experience by aligning staffing and sales tactics with identified sales trends.

Certifications

IELTS Band 8

[**Microsoft Certified: Azure Data Scientist Associate**](#)

[**Microsoft Certified: Azure AI Fundamentals**](#)

[**NPTEL: Data Mining**](#)

[**NPTEL: Health Research Fundamentals**](#)

Skills

Programming Languages: Python, Java, HTML, CSS

Technologies: Excel, Tableau, Vue.js, Flask, Bootstrap
